

KLOVE Radio is a FM broadcast I depend on. The encouraging counsel it provides has helped me through depressions and encouraged me to be a productive member of our community. Others I've talked to in our area have also shared how it has changed their lives and their childrens lives, some of which were having continual run-ins with law enforcement. This radio station is changing lives and families and communities for the better one person at a time. One more person out of jail and being a productive member of society is an excellent public service. One more divorce or child abuse case out of our legal system helps the community. We need KLOVE and it's life changing counsel to continue. Please do not let LPFM stations take priority over existing FM translators. If KLOVE wasn't here, I might not be here today. And several people I know would still be in conflict with the law. Saving energy with Low Power Transmitters is great, but, saving lives has value too. Please do not let LPFM stations have priority over existing stations.

Thank You,

Tami Pritchett
